

DIGITAL CONTRACT MANAGEMENT
AND NEGOTIATION TOOL

Digital contract automation tool that covers the entire contract process and life cycle. Use your own documents or take advantage of more than 300 ready-made contract templates in Finnish and in English.

WHAT IS IT?

The use is based on license agreements with Agens Ltd, where there can be either 1-4 or 5-10 users. Use it as a digital space for contract management, editing and negotiation.

AGENS

TWO MODES OF
USE

Create a negotiation space for the parties.

Select a contract template or import your own documents. You can further edit, share and comment multiple drafts at the same time. End with an e-signature or saving of the document and negotiation history.

NEGOTIATION AND
EDITING SPACE

Select a document template by name or product group, and save in word or pdf format. This is ideal when you only need a template, and want to edit outside the provided space.

Templates can be previewed before they are taken out.

BENEFITS OF THE TOOL

The tool can be customized according to the client's needs. Choose Online version when basic components and the possibility to import own documents into the process is enough. Choose Suite version when you want to create and manage your own contents and product groups.

CUSTOMIZABLE

The tool is quick, easy to use and completely GDPR-proof. Negotiation spaces are established for each process and deleted upon completion. Negotiation history can be saved as pdf document in addition to the final documents.
